SUMMARY

7+ years of software development experience with a strong focus on Angular and TypeScript. Skilled in building responsive, accessible web applications and integrating REST APIs. Experienced across the full delivery lifecycle — from architecture and implementation to automated testing, CI/CD pipelines, and code reviews. Comfortable in agile environments and passionate about maintainable, high-quality software.

SKILLS

Languages & Frameworks: JavaScript, TypeScript, Java, C++, SAP ABAP, SAP RAP, HTML, CSS, Angular, Storybook, lit-html, NgRx, RxJS, SQL, PostgreSQL, Spring Boot

Tools & Technologies: Nx, AWS, W3C standards, SAP BTP, abapGit, GitLab, Docker, REST API, CI/CD, GitHub Actions, Jenkins, Karma/Jasmine

Software Development: Agile (Scrum, Kanban, Jira, Confluence), Unit Testing, E2E Testing, Code Reviews, SAP Joule

WORK EXPERIENCE

Individual Informatics Instructor

Jan 2026 – present

- Encourage a strong analytical mindset in students by bridging the gap between theoretical school mathematics and practical algorithmic implementation.
- Delivered comprehensive Informatics instruction across foundational computer science topics, programming logic, and software development fundamentals using C++.
- Mentored junior students in essential data structures and algorithms, including sorting, binary search, recursion, and basic graph theory (BFS/DFS), successfully preparing them for the Olympiad in Informatics.

Software Developer

May 2025 – Nov 2025

CompuGroup Medical SE & Co. KGaA, Germany

- Developed features for a complex ERP SaaS platform (Spring Boot, Java, Angular, TypeScript) — direct exposure to enterprise business processes such as order, master data and document handling.
- Migrated legacy AngularJS components to Angular v20, improving maintainability and performance.
- Debugged rendering issues and improved REST API interface responses.
- Implemented end-to-end tests with Playwright and participated regularly in peer code reviews.
- Collaborated closely with product management and QA across the full delivery cycle.

Technical Consultant

Dec 2021 – Apr 2025

NTT DATA, Germany

- Enhanced CRM system architecture, contributing to frontend with implementing new functionalities and optimizing with Angular and TypeScript.
- Initiated adoption of Nx to reduce build and test times by 50% both locally and in CI/CD pipelines through computation caching technology and elimination of circular/dead code.
- Took a part in a large-scale customer information hub, spearheading backend development with Java, SQL, PostgreSQL, and employing testing frameworks such as JUnit and Mockito.
- Implemented Docker-based container orchestration, improving scalability and resource utilisation.
- Conducted CI/CD pipeline setup and Angular version migrations; performed regular code reviews.
- Developed impactful showcases, led presentations for acceptance, and effectively demonstrated task solutions during Sprint Reviews.
- Worked in an agile Kanban/Scrum environment, participating in sprint reviews and retrospectives.

Frontend Developer Jul 2015 – Mar 2017

DreamArt Creative Agency

- Built and optimised a startup website using HTML, CSS, JavaScript, and jQuery with responsive layouts.
- Collaborated with UX/UI designers to refine business logic and improve user management flows.
- Debugged rendering issues and improved REST interface responses.

IT Support Technician Mar 2012 – Jun 2013

Caspel LLC, Azerbaijan

- Delivered technical support for hardware and software systems.
- Maintained internal network infrastructure including servers, routers, and switches.

EDUCATION

M.Sc Computer and Information Science Aug 2021

University of Konstanz, Germany

Bachelor of Information Systems Jun 2013

University of Civil Engineering, Azerbaijan

CERTIFICATES

Microsoft Certified Technology Specialist: Windows Server Active Directory, Configuration
